I am a 51 year old male every day am in my regular routine work disturbed sleep before night. I felt weakness in the right sided body, I thought it was a general weakness as time progresses am not able to lift my right hand and unable to move the leg also.

My family members and I am worried I felt my heart pounding. We decided to approach Apollo Reach Hospitals Karimnagar, because we had some hope we wil get a solution. Many thoughts running in my mind if I am not able to use my right hand and leg how I can work and feed my family.

Without delay I went to Emergecny department of Apollo Reach Hospitals Karimnagar, diagnosed with a lesion in the brain, my neurophysician gave a medical management, good physiotherapy, good IP services.
